Royal Mail Publishing Mail®

March 2019

Royal Mail

Helping your business thrive and prosper

Royal Mail is the UK's designated Universal Postal Service Provider, supporting customers, businesses and communities across the country. We are the only company that has the capability to deliver a 'one-price-goes-anywhere', six-days-a-week service on a range of letters and parcels to more than 29 million addresses across the UK.

Online Price Calculator

Use our online price calculator to find the best options for your mailing. There's also a downloadable excel version.

royalmailtechnical.com/calculator

For prices that are changing in January 2019 please visit: royalmail.com/prices2019. For all other prices visit royalmail.com/current-postage-prices

From 2 January 2019 prices in this rate card can be found at royalmail.com/publishing-mail

Although correct at the time this rate card was produced (November 2018), postal prices, fees and other conditions are subject to revision from time to time and services may need to be added or withdrawn.

Up-to-date information may be obtained by visiting royalmail.com

	251-750g	70.1p	0.1834p	58.3p	0.1565p

Prices in this table exclude VAT, which is charged at the standard rate. Please note that Low Sort is not available with the Publishing Profile discount.

Table 2 – Product Codes

Product Code	Format	Delivery Speed	
		1st Class	2nd Class
	Large Letter OCR	PQ3	PQ4
	Large Letter Mailmark	EBP	EBQ

Table 3 – Sortation and machine-readable discounts

Format		1st Class	2nd Class
Large Letter OCR	0-100g	8.85%	8.81%
	101-250g	8.90%	8.73%
	251-750g	8.82%	8.65%
Large Letter Mailmark	0-100g	10.73%	10.11%
	101-250g	10.70%	10.03%
	251-750g	10.70%	10.40%

Table 4 – Volume Related Discounts (VRDs)*

Format	Number of Items	1st Class and 2nd Class	
		OCR	Mailmark barcode
Large Letter	1,000-9,999	0.00%	0.00%
	10,000-19,999	1.00%	1.00%
	20,000-39,999	1.50%	2.50%
	40,000-59,999	2.00%	4.00%
	60,000 +	3.00%	4.50%

*Volume Related Discounts for direct items are based on total daily volumes over multiple sales order lines providing all items are posted on the same day; posted from the same posting location (site); posted via the same product, format and magazine code, and only applies to direct items (residue items are not counted towards the calculation). Low Sort and Volume related discounts are not available for our Publishing Mail with Premium option or in conjunction with our Publishing Mail with Profile option discount.

Mailings of less than 1,000 items may be charged at a higher rate.

Publishing Mail

Table 5 – Trayed Mail Savings

	Saving per item
Low Sort Large Letters (up to 10mm thick)	0.90p

Discounts apply after all other discounts (VRDs, sortation, profile price, etc) are applied but before VAT

Calculating the price of your Publishing Mail with Low Sort option mailing

Step 1: Find the full price for the items you are mailing. If the item weighs more than 250g, then an incremental price should be added to the full price based on the exact weight of the item. The incremental price is calculated as the incremental weight in grams above 250g (or above 1000g if the item is heavier than 1000g), multiplied by the gram price increment. The result is rounded to the nearest 1/10th of a penny.

Step 2: Identify the appropriate sortation and machine-readable discounts from Table 3.

Step 3: Add to the sortation and machine-readable discount the applicable Volume Related Discount from Table 4.

Step 4: Apply the aggregate discount to the full price to calculate the item price.

Step 5: Multiply the prices by the number of items.

Worked example

A 2nd Class posting of 98,277 Large Letters Mailmark weighing 302g each.

Step 1: The full price = $58.3 + ((302 - 250) \times 0.1565p) = 66.438p$ rounded to the nearest 1/10th of a penny = 66.4p.

Step 2: The sortation and machine-readable discount = 10.40% from Table 3.

Step 3: VRD from Table 4 = 4.50% added to the sortation and machine-readable discount of 10.40% gives a total of 14.90%.

Step 4: Price = $66.4p \times (100\% - 14.90\%) = 56.5064p$.

Step 5: Price of mailing = $(56.5064p \times 98,277) / 100 = £55,532.79$ (excluding VAT).

Trayed Mail Savings:

Low Sort Large Letter mailings presented in trays will save 0.90p per item from Table 5 = $(0.9p \times 98,277) / 100 = £884.49$ (excluding VAT).

Total tray price of mailing = $£55,532.79 - £884.49 = £54,648.30$ (excluding VAT).

	20,000 +	2.00%	2.00%	2.00%	2.00%

*Volume Related Discounts are not available for our Publishing Mail with Premium option or our Publishing Mail with Profile High Sort option discount.

**Volume Related Discounts for direct items are based on total daily volumes over multiple sales order lines providing all items are posted on the same day; posted from the same posting location (site); posted via the same product, format and magazine code, and only applies to direct items (residue items are not counted towards the calculation).

†For Residues, the volumes against the Direct selection and any multiple posting volumes against other sales order lines cannot be counted towards the Volume Related Discount calculation.

Volumes of less than 1,000 items may be charged at a higher rate.

Table 5 – Trayed Mail Savings

	Saving per item
High Sort Large Letters (up to 10mm thick)	0.90p

Discounts apply after all other discounts (VRDs, sortation, profile price, etc) are applied but before VAT

Publishing Mail

Aggregating volumes on Direct selections to achieve and maximise Volume Related Discounts:

In order to reach the VRD discount threshold on any given posting day, and to maximise the level of VRD obtainable, you can aggregate volumes on Direct selections in 2 ways:

1. You can combine a number of the same product / service level mailings onto one confirmed sales order. You will need to show in the comments field all the job reference numbers or part jobs included on that confirmed sales order. If you do this and then have multiple entries on a single confirmed sales order you must link the individual lines with the appropriate Customer Reference Number (CRN) to maximise your Volume Related Discount.
2. If you are unable to show all mailings for one day on a single confirmed sales order (usually because mailings are at different times) you must put the same Customer Reference Number (CRN) on each confirmed sales order and against each multiple entry.

Any VRDs will be a credit on your account overnight (or a debit if any associated adjustments are made).

Calculating the price of your Publishing Mail with High Sort options mailing

Step 1: Find the full price for the items you are mailing. If the item weighs more than 250g (above 750g for Parcels) then an incremental price should be added to the full price based on the exact weight of the item. The incremental price is calculated as the incremental weight in grams above 250g (above 750g for Parcels or above 1000g if the item is heavier than 1000g), multiplied by the gram price increment. The result is rounded to the nearest 1/10th of a penny.

Step 2: Identify the appropriate sortation and machine-readable discounts from Table 3.

Step 3: Add to the sortation and machine-readable discount the applicable Volume Related Discount from Table 4.

Step 4: Apply the aggregate discount to the full price to calculate the item price for direct and residue items.

Step 5: Multiply the direct and residue prices by the number of items in each category.

Step 6: Add the direct and residue values together to calculate the total transaction price.

Publishing Mail

Worked example

A Publishing Mail with High Sort option – 2nd Class posting of 112,439 Large Letters weighing 302g each. 98,277 of these are Directs and 14,162 are Residues.

Step 1: The full price = 61.70p + ((302 – 250) x 0.1640p) = 70.228p rounded to the nearest 1/10th of a penny = 70.2p.

Step 2: Direct discount = 11.36%, Residue discount = 5.0% from Table 3.

Step 3: VRDs from Table 4 are 4.50% added to the Direct discount of 11.36% gives total discount for Direct items of 15.86% Residue VRD from Table 3 = 1.00% added to the Residue discount of 5.0% gives total discount for Residue items of 6.0%.

Step 4: Price of Directs = 70.2p x (100% - 15.86%) = 59.08984p.
Price of Residues = 70.2p x (100% - 6.0%) = 65.9880p.

Step 5: Price of Directs in mailing = (59.08984p x 98,277)/100 = £58,071.72.
Price of Residues in mailing = (65.9880p x 14,162)/100 = £9,345.22.

Step 6: Total for this mailing = £58,071.72 + £9,345.22 = £67,416.94 (excluding VAT).

Trayed Mail Savings:

High Sort Large Letter mailings presented in trays will save 0.9p per item from Table 5 = (0.9p x 112,439)/100 = £1011.95 (excluding VAT).

Total tray price of mailing = £67,416.94 - £1011.95 = £66,404.99 (excluding VAT).

Publishing Mail

Publishing Mail with Premium option (PM1)

For our Premium option prices, please refer to the Publishing Mail with High Sort option – 1st Class full prices and per gram increments which are set out in Table 1. Our Premium option will not qualify for any sortation or volume-related discounts.

Profile Price

If you have at least 3,000 Direct selections going to qualifying postcodes you may qualify for a Profile Price discount which is deducted from the price you have worked out above.

Your Profile Price discount is worked out according to the formula below.

$$A (\%) = \left(\frac{\text{number of Direct Selection items going to qualifying postcodes}}{\text{the total number of Direct Selection items}} \right) \times 100 \times 0.645 - 4.0$$

$$B = \frac{\text{total number of Direct Selection items}}{\text{the number of unique Direct Selection addresses}}$$

Profile discount % = A x B

Calculated to one decimal place and capped at 16%

Publishing Mail Profile – Minimum Prices

Minimum Prices

	Minimum Price
1st Class	48.7p
2nd Class	35.1p

Prices in this table exclude VAT, which is charged at the standard rate.
